

Website Revisited - Changes

I made the following modification to my website according to david's feedback on the original website, in addition to that after validating the website in w3 validator, i got some errors and i almost corrected the errors, and these are the few corrections to highlight in the revisited website.

- 1) made the website responsive.**
- 2) Changed the high resolution images to low Mb images.**
- 3) Added definition list and javascript to the opening hours.**
- 4) Added looping for product page.**
- 5) Modular website using Php (header, footer)**
